Award Amount: \$800,000.00

### **Synopsis:**

The Increasing Awareness of Safe Boating Practices grant project is a national year-round safe boating public awareness outreach campaign designed to heighten public awareness of safe boating practices through the use of traditional media and non-traditional/new/social media. The grant uses leading boating media publishers to distribute safe boating messages that include videos, banner ads, print ads, and articles to boaters through affinity publications and their related digital media. In addition to its own organic safety messages, the grant also works to promote the safety messages of other boating safety organizations.
