

## **Nonprofit Organization Grants:**

Coast Guard Office of Auxiliary and Boating Safety  
Recreational Boating Safety

Federal Grant Title: National Non-Profit Organization Grant Program  
Federal Agency: United States Coast Guard  
Funding Opportunity Number: DHS-USCG-2020-001  
Type of Funding: Cooperative Agreement  
CFDA Numbers: 97.012  
CFDA Descriptions: Boating Safety Financial Assistance

Grantee: National Association of State Boating Law Administrators (NASBLA)  
Grant Number: 3320FAN112007  
Grant Title: Boating Safety Dashboard  
Period of Performance: 1 year grant

Award Amount: \$73,148.00

### **Summary:**

The National Association of State Boating Law Administrators, on behalf of the 56 U.S. states and territories, is seeking support for development, implementation, and continued maintenance of Boating Safety Dashboards (“Dashboard”). The Dashboard is a tool designed for use by recreational boating safety (RBS) program managers and other stakeholders to make better informed policy and program decisions by providing ready access to U.S. Coast Guard (USCG) and state-level recreational boating safety (RBS) data so they, and their teams, may readily access published data from many sources for evaluation.

In information technology, a dashboard is a user interface that organizes and presents information in a way that is easy to read. The Boating Safety Dashboards facilitate the states’ use of program data by providing easy to use, interactive graphic illustrations with comparisons to other programs.

All Boating Safety Dashboards will continue to be made available via a nationwide web license providing open access to all information. This project greatly expands the amount and usefulness of illustrated data in support of the U.S. Coast Guard Strategic Plan.
